DANE

Dane Edward Moser was born in 1984 and, although his tiny face looked perfect, it didn't take long to discover Dane had multiple disabilities. Dane's Cerebral Palsy soon affected every part of his life, including his ability to grow and prosper like other children.

In 1998, Dane came to live with the Moser family, and they formed an immediate and special bond. Dane was adopted by the Mosers in 2002.

Dane had a radiant personality that brightened our world. His smile said a thousand words, even though his voice could not. His sense of humor and understanding was evident the moment you met him. No meant "no" when he stuck out his tongue, and "yes" was always understood by the smile and kicking feet. Flirting was *amazingly* obvious for this young man...no words needed to be spoken! For 23 years Dane fought all odds against his disabilities, but passed away quietly on August 30, 2009.

Dane represents the successes we all hope to have in our lives. His story is that of a young man who had overcome obstacles so he could inspire others. His spirit offers hope that, despite any obstacle, you too can face challenges head on, overcome the adversities of life, and survive to change lives, hearts, and minds. All we need is help, encouragement and understanding.
